GLOVE ANSELL TOUCHNTUFF®

Disposable glove TouchNTuff® 92-500 is a very versatile disposable glove and is suitable for many different applications. Textured fingertips. Powdered. Chemical spray protection, which withstands a greater variety of industrial chemicals over longer periods of time than other nitrile disposable gloves. Soft nitrile blend provides a high level of comfort. Powerful design for good durability. It has four times better resistance to puncture than comparable gloves in natural latex, and three times better resistance than neoprene gloves. Does not contain natural rubber proteins, therefore no risk of Type I allergies. The "Thin Nitrile Technology" formula makes this glove easy to put on and has good grip under wet or dry conditions. Silicone free. Suitable for transfer of liquids and solids, processing, processing of meat, fish and foodstuffs, industrial production, maintenance, and to laboratories. Sales unit: 1 box of 100 pcs. Carton: 10 boxes of 100
