Material	Full grain leather
Article number	EMM-539848

Special welding shoes, designed for professionals who work with metal in extreme temperatures. All that gets into Vulcan are your feet. Sparks or hot metal splinters don't stand a chance, thanks to the flap that goes all the way over the base. We have done everything we can to keep Vulcan as light as possible. The result is a shoe that is as comfortable as it is safe. The strong leather upper, integrated steel toe cap and nitrile rubber (HRO) outsoles are resistant to the harsh chemicals used in galvanizing and other metalworking.
