

GLOVE ANSELL ALPHATEC® 58-270

Glove AlphaTec® 58-270 is liquid-tight and has a thin double nitrile outer layer together with seamless 15-gauge nylon lining, ensuring excellent dexterity and flexibility. Its light weight provides better comfort than other chemical resistant gloves. It retains little heat and therefore reduces perspiration compared to other chemical gloves and is easy to put on and take off. In areas where chemicals, oil and grease are present, the glove provides the best grip thanks to Ansell Grip Technology™. It is designed for light to medium applications. Suitable for contact with oils, chemicals and other liquids, body paint including surface inspection, injection molding, repair and maintenance of equipment, assembly and installation of components, paint, and assembly and inspection. Length 30 cm. Bundle: 12 pairs. Carton: 144 pairs.

SKU: 0-6-58270 | **Categories:** [Assembly](#), [Chemical-resistant](#), [Gloves](#) |
