

HELMET 3M SECUREFIT REFLECTIVE

HELMET 3M SECUREFIT REFLECTIVE

Technical

Ventilated helmet SecureFit™ X5000 in a tough design without brim, and therefore does not block the field of view upwards. Scotchlite reflective for increased visibility and safety. 6 setting options for height adjustment. 6-point ratchet harness with comfort band. Pressure Diffusion technology, which increases user comfort and provides a secure fit by reducing the pressure on the forehead. 4-point system on the chin strap makes it possible to choose between EN 397 (industry) and EN 12492 (climbing). Approved for lateral deformation (LD) and to -30 ° C. Uvicator sensor changes color when it is time to replace the helmet. 5 years recommended lifetimee from production date. 30 mm slot for attachment of accessories. Size 50-63 cm.
