SOLID GEAR DUNE

Solid Gear Dune, the perfect compromise between breathability and cushioning. This is the result from a microfiber upper with TPU reinforcement and high cushioning PU midsole. The pouring polyurethane technology in midsoles, together with a thin rubber outsole, gives a very lightweight and good cushion and increases the comfort in a safety shoe. Non-metallic toe cap and penetration board. VELCRO® Strap System for an easy instep. ESD function according to BS EN 61340-4-3:2002.

- Oil resistant outsole
- Heat resistant outsole
- Metal free
- Slip resistant
- Nail protection
- ESD
- Ventilated upper
- ISO 20345:2011 is an EN standard that specifies basic and additional (optional)

requirements for safety footwear used for general purpose. It includes, for example, mechanical risks, slip resistance, thermal risks and ergonomic behaviour.
