

SOLID GEAR DYNAMO GTX

The Solid Gear Dynamo GTX is a unique combination of a trail and running shoe. The ETPU midsole offers optimal comfort and energy return. The stability of the Dynamo GTX comes from the special construction of the binding sole, which also controls how the shoe can flex. The rubber sole, despite its light weight, provides good grip and additional stability. Sock construction and ripstop upper with BOA® Fit System, which is mounted on the side of the shoe, provides a good fit and flexible feel. GORE-TEX® Stretch Technology maintains a compliant fit and good breathability, while no moisture penetrates. The Dynamo GTX has a newly developed insole from OrthoLite® that offers support and cushioning made from recycled material. Stabilizing heel cap made from collected and recycled marine debris, such as fishing nets. The outsole is also antistatic, oil resistant and slip resistant. The shoe is certified according to the standard EN-20347:2012. Upper: CORDURA® ripstop Lining: Stretch Membrane: GORE-TEX® Outsole: Slip- and oil-resistant rubber Midsole: ETPU Insole: PU-foam and recycled materials with good breathability Function: BOA® Fit System Read: Normal Sizes: 35-48 Protection class : EN ISO 20347:2012 O2, SRC, WR, FO

- ETPU for endless energy reproduction
 - GORE-TEX® Stretch Technology
- Insole from OrthoLite® in PU foam with good breathability
 - BOA® Fit System on panel construction
- Sock construction and lightweight CORDURA® ripstop upper
 - Stabilizing heel cap made from collected marine debris
