SOLID GEAR DYNAMO

The Solid Gear Dynamo is a unique combination of a trail and running shoe. The ETPU midsole offers optimal comfort and energy return. The stability in the Dynamo comes from the special construction of the binding sole, which also controls how the shoe can flex. The rubber sole, despite its light weight, provides good grip and additional stability. The durable CORDURA® ripstop upper with BOA® Fit System, which is mounted on the side of the shoe, provides a good fit and flexible feel. Dynamo has a newly developed insole from OrthoLite® that offers support and cushioning made from recycled material. The outsole is also antistatic, oil resistant and slip resistant to the certification standard EN-20347:2012. Upper: CORDURA® ripstop Lining: Mesh Outsole: Slip- and oil-resistant rubber Midsole: ETPU Insole: PU-foam and recycled materials with good breathability Function: BOA® Fit System Read: Normal Sizes: 35-48 Protection class: EN ISO 20347:2012 O1, SRC, FO

- ETPU for endless energy reproduction
- BOA® Fit System on panel construction
- Insole from OrthoLite® in PU foam with good breathability

- Reinforced at the toe
- Lightweight ripstop upper
