SOLID GEAR RECKON

SOLID GEAR Reckon creates a superior compromise between lightweight and cushioning. This result is
reached by a microfiber upper with TPU reinforcement and a high cushioning PU midsole. In addition
this comfortable mid high boot offers great grip thanks to the pattern and compound on the rubber
outsole. We use Boa® Fit System for easy lacing. Reckon provides a similar fit and easy instep as a
sporty boot. Non-metallic protection in toe cap and penetration board.
ESD function according to BS EN 61340-4-3:2002.
