

SOLID GEAR SEA

Solid Gear Sea creates a superior combination between stability and cushioning. This result is reached by a durable leather upper with a new insole board construction and a high cushioning poured PU midsole. In addition, this comfortable shoe offers great grip thanks to the pattern and compound on the rubber outsole. Solid Gear Sea also provides great ergonomics and stability with the same rebound feeling as a sport shoe. Non-metallic toe cap and nail protection.

SAFETY CLASSES

ISO 20345:2011 is an EN standard that specifies basic and additional (optional) requirements for safety footwear used for general purpose. It includes, for example, mechanical risks, slip resistance, thermal risks and ergonomic behaviour.
