SOLID GEAR VENT PLASMA

Vent Plasma from Solid Gear is a highly breathable and lightweight safety shoe. By using the revolutionary technology ETPU, the midsole gives you endless cushioning and comfort. The more energy you give, the more you get back. TPU reinforcement covering the highly breathable net mesh for a supreme fit and great protection. Solid Gear continues to provide users with the NANO toe cap, which is 40 % stronger than fiberglass as well as lighter and thinner than other non-metallic toe caps. With PU foam sock technology, the comfort in this shoe is best in class. Slip resistance class SRC ensures great friction on several surfaces.

- Oil resistant outsole
- Slip resistant
- Nail protection
- Ventilated upper
- Metal free protection but metal in upper
- ISO 20345:2011 is an EN standard that specifies basic and additional (optional) requirements for safety footwear used for general purpose. It includes, for example,

mechanical risks, slip resistance, thermal risks and ergonomic behaviour.
