STANDARDS

- Meets or exceeds ANSI Z87.1 standard
- CE EN166 certificated
- CE EN 166 N anti-fog (Clear/Tinted lens) and K anti-scratch requirements
- AS/NZS 1337.1

LENSES

- Made from purity optical grade/Polycarbonate
- Absorbs 99.9% harmful UV light
- Curved lenses offer fit with unlimited wrap around protection

GENERAL LENS PROPERTIES

Clear (CL)

- General purpose that provides maximum visibility
- Indoor lens, good for mechanical work, or dusk, dawn and nighttime activities

Amber (AM)

- Maximum enhancement of contrast in low light environments (i.e. warehouse)
- Blocks out 87% of blue light with unparalleled level of detail definition and color recognition
- Offers brighter view in early morning or late evening, on cloudy, foggy or hazy days
- Suitable for night shift workers, surface inspection and mechanical work

Smoke (SK)

- Transmits all colors at the same level
- Protects eyes from excessive glare and high levels of hazardous visible light and ultraviolet radiation without distorting color perception
- Ideal for outdoors use on bright sunny days, but does not enhance target

Cool (I/O)

- General purpose safety lens / the most popular tinted lens
- Clear UV400 lens with light gold coating for indoor and outdoor use
- 100% protection from harmful UVA and UVB rays
- Gives true color perception
- Commonly used where it is required to move between indoor and outdoor applications such as driving a fork lift truck
